PROFESSIONAL SUMMARY

A highly motivated and detail-oriented postgraduate student pursuing a Master's degree in Cyber Forensics, with a solid academic background including a Bachelor's degree in the same field. Possess strong foundational and advanced knowledge in cyber security, enhanced through a comprehensive 6-7 month advanced-level certification course. Demonstrated expertise in digital forensics, network security, ethical hacking, and incident response. Committed to continuous learning and contributing to the advancement of secure digital environments through analytical thinking and practical skills.

EDUCATION

MSc Cyber Forensics — MG University, Kottayam	2024 - 2026
BSc Cyber Forensics — MG University, Kottayam	2021 - 2024
Offenso Certified Security Professional (OCSF) — Offenso Hackers Academy, Palarivattom	6-7 Months

CERTIFICATES & ACHIEVEMENTS

OCSF certificate from Offenso Hackers Academy on Advanced level Cyber Security (Jan 25, 2025)

Deloitte Australia Cyber Job Simulation on Forge (July 25, 2026)

Tata Cybersecurity Security Analyst Job Simulation on Forge (July 26, 2026) Kaspersky

Academy Cyberhygiene (July 26, 2026)

TECHNICAL SKILLS

- Cybersecurity: SOC Operations, Security Monitoring, Log Analysis, Threat Detection, Incident Response, Vulnerability Assessment, Network Security, Threat Intelligence, Phishing Analysis, Security Auditing
- Network Security: TCP/IP, DNS, HTTP/HTTPS, Network Traffic Analysis, PCAP Analysis, Wireshark, IDS/IPS Fundamentals, Firewall Fundamentals, Nmap
- VAPT & Web Security: Penetration Testing, Vulnerability Scanning, Web Application Security, OWASP Fundamentals, SQL Injection, Cross-Site Scripting (XSS), Burp Suite, Metasploit, Postman
- Digital Forensics: Digital Forensics, Digital Evidence Acquisition & Preservation, File System Forensics, Evidence Integrity, Hash Analysis, Chain of Custody, Steganography, Autopsy, FTK Imager
- Programming & Databases: Python, Flask, Java, JSP, HTML, SQL, MySQL, SQLyog, WAMP Server
- Security Concepts: SHA-256 Hashing, RSA Digital Signatures, Authentication, Authorization, Role-Based Access Control (RBAC), Data Integrity, Virtualization

PROJECTS

- LogX-Ray — Cybersecurity Threat Analysis Platform: Developed a centralized threat analysis platform using Flask/Python, MySQL, and PCAP analysis to monitor logs and detect network threats in real time, enabling centralized security event investigation and forensic analysis with role-based access control.
- TrueTrace SDEM — Secure Digital Evidence Management System: Developed a secure digital evidence management system using JSP/Python, SHA-256 hashing, RSA digital signatures, and steganographic watermarking, strengthening evidence integrity, authenticity, and tamper detection throughout digital evidence handling.
- Seafarer Voyage — Inventory Management Web & Mobile App: Developed a handheld inventory management system with centralized database synchronization to digitize stock recording and supplier receiving workflows, replacing paper-based inventory tracking and improving accessibility of inventory records.

- Colour My World — AR-Based Home Design Web Application: Developed an AR and image-processing web application for virtual visualization and customization of home designs, curtains, and decorations, enabling users to preview design options digitally before implementation.
- Heal Space — Mental Wellness Web & Mobile Application: Developed a JSP-based web and mobile application for the college Psychology Department's NAAC initiative, integrating secure authentication, RBAC, appointment management, and centralized MySQL data management to support separate workflows for administrators, counselors, and students.

CORE COMPETENCIES

Analytical Thinking, Technical Communication and Documentation, Leadership, Attention to Detail, Fast Learner & Adaptable, Negotiation, Time Management, Research Skills, Creativity, Continuous Learning, Team Collaboration

LANGUAGES

Malayalam (Native), English (Fluent), Hindi (Beginner)
